                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             1201
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   1141
                                                                                                                                                                                                                                                                                                                                                           Submitted (01-JUN-1995) Guy Plunkett, Laboratory of Genetics, University of Wisconsin, 445 Henry Mail, Madison, WI 53706, USA On Feb 27, 1996 this sequence version replaced 91:882576.

This sequence was determined as part of the E. coli Genome Project (Prederick R. Blattner, director) at the University of Wisconsin-Madison. Supported by award H600301 from the NIH Human Genome Project. The entire sequence was independently determined from E. coli MG1655, overlaps with other sequence determinations are annotated. The end of this entry overlaps the start of the entry ECOUW67 (U18997) by 1596 bp. This entry should be considered somewhat provisional; it will be updated and merged with others at
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             Escherichia coli
